

A total of 36.5 credits have been approved for the 2024 National No-Tillage Conference through the Certified Crop Advisers. The most any individual can earn is 15.5 for the general sessions and classrooms, or up to 17.5 credits by attending the paid pre-conference bonus workshop.			
Session	CEU Topic	Credits	Date/Time
Pre-Conference Workshop - From Data to Action: How Water Quality Projects Improve No-Till F	Soil & Water Management	2	January 9, 2024 @ 4 p.m.
The 7 Wonders of the 300-Bushel Corn Yield World	Nutrient Management	1	January 10, 2024 @ 8:30 a.m.
Making Grazing So Easy a Corn Grower Can Do It	Nutrient Management	1	January 10, 2024 @ 9:30 a.m.
Profitable Cover Crop Strategies	Nutrient Management	1	January 10, 2024 @ 11:00 a.m.
Cautions & Considerations for Using Drones to Spray Herbicides	Integrated Pest Management	1	January 10, 2024 @ 11:00 a.m.
How the USDA Will Use Your Ag Data	Precision Ag	1	January 10, 2024 @ 11:00 a.m.
No-Till Tech Talks: Round 1	Crop Management	1	January 10, 2024 @ 11:00 a.m.
Optimize No-Till Decisions Using Your Precision Data	Precision Ag	1	January 10, 2024 @ 11:00 a.m.
All Biologicals Are Not Created Equal	Crop Management	1	January 10, 2024 @ 11:00 a.m.
What No-Tillers Stand to Gain from Working with Ag Startups	Crop Management	1	January 10, 2024 @ 1:30 p.m.
What Is No-Till Soil Truly Worth?	Nutrient Management	1	January 10, 2024 @ 2:30 p.m.
Harness Precision Technologies for Higher Profits	Crop Management	1	January 10, 2024 @ 4:00 p.m.
Spreading the No-Till Message Farmer-to-Farmer Panel	Crop Management	1.5	January 11, 2024 @ 7:00 a.m.
Question Everything in Your No-Till Operation	Crop Management	1	January 11, 2024 @ 8:45 a.m.
The Good, The Bad & The Ugly of Transitioning from Conventional to No-Till	Crop Management	1	January 11, 2024 @ 8:45 a.m.
Diversifying Your No-Till Operation & Revenue Streams	Professional Development	1	January 11, 2024 @ 8:45 a.m.
No-Till Tech Talks: Round 2	Crop Management	1	January 11, 2024 @ 8:45 a.m.
Capitalizing on the New Sustainability Commodity Marketplace	Sustainability	1	January 11, 2024 @ 8:45 a.m.
Achieve Market-Leading Returns on Your No-Till Farmland	Crop Management	1	January 11, 2024 @ 8:45 a.m.
Solving Vertical Destratification for Higher Corn Yields	Nutrient Management	1	January 11, 2024 @ 10:00 a.m.
Ahead of the Curve: Cutting-Edge No-Till Technology Review	Crop Management	1	January 11, 2024 @ 11:15 a.m.
Lessons Learned from Teaching the World About No-Till	Sustainability	1	January 11, 2024 @ 2:00 p.m.
Evolution of Yield Monitors in the Last 25 Years	Precision Ag	1	January 11, 2024 @ 3:00 p.m.
Keeping Rain Where It Falls with No-Till	Soil & Water Management	1	January 11, 2024 @ 4:30 p.m.
My Top 5 Aha! No-Till Tools	Crop Management	1	January 11, 2024 @ 4:30 p.m.
Cracking No-Till Yield Gaps with Strip-Till	Crop Management	1	January 11, 2024 @ 4:30 p.m.
No-Till Tech Talks: Round 3	Crop Management	1	January 11, 2024 @ 4:30 p.m.
How to Successfully No-Till Without Inputs	Crop Management	1	January 11, 2024 @ 4:30 p.m.
Taking a Systems Approach to No-Till & Soil Health	Crop Management	1	January 12, 2024 @ 9:15 a.m.
Thoughts from a Mad Man': Adaptive No-Tillage Management in Practice	Crop Management	1	January 12, 2024 @ 9:15 a.m.
Comparing 50 Years of No-Till to Other Tillage Systems	Crop Management	1	January 12, 2024 @ 9:15 a.m.
Making Organic No-Till Row Crop Production a Reality	Crop Management	1	January 12, 2024 @ 9:15 a.m.
Top Tips for Managing Residue in a Corn-Soybean Rotation	Crop Management	1	January 12, 2024 @ 9:15 a.m.
Why You Should Add Wheat Back Into Your Rotation	Crop Management	1	January 12, 2024 @ 9:15 a.m.
Maximizing No-Till's Potential in Drought	Soil & Water Management	1	January 12, 2024 @ 11:25 a.m.
