

INNOVATIVE, EFFECTIVE COVER CROP MANAGEMENT SOLUTIONS

Cover crops prevent erosion, suppress weeds, improve water availability, supply nutrients to new crops, and more.

Maximize and manage your investment in cover cropping with Yetter Farm Equipment's industry-leading product lineup.

5500 COVER CROP DEVASTATOR™ ROLLER ATTACHMENT

Attach the 5500 Cover Crop Devastator to your tractor, planter, or toolbar to roll and crimp tough cover crops in the direction of planting. Spring-loaded, chevron-patterned rollers clear the way for cash crops and create a weed-suppressing mat in just one pass.

- Rolls over and crimps last year's cover crops while you plant
- Spring-loaded to follow ground contours
- Creates weed mat to preserve residue cover and reduce erosion
- Solid steel construction ensures reliability and durability

Consult Yetter dealer or sales representative for mounting options

MORE HARD-WORKING COVER CROP SOLUTIONS
