

# A TRADITION OF SOLUTIONS SINCE 1930

## 2940 AIR ADJUST

**PLANTING CONDITIONS CHANGE EVERY HOUR, EVERY DAY.** With Yetter Air Adjust equipment, that's no problem for your on-the-go operation. Our Air Adjust products feature pneumatic in-cab control so you can make quick adjustments for non-uniform field conditions. You'll save time and cover more acres per day.

## 5000 STALK DEVASTATOR™

PATENTED

The 5000 Stalk Devastator rolls through the field, crushing stalks so they contact the soil—the residue breakdown process is accelerated, and expensive damage to tires and tracks during harvest is prevented.
